(1) The regulatory adjustments include such items as goodwill, intangible assets, non-significant investments in the capital of banking, financial and insurance entities and transitional arrangements for expected loss provisioning. The Office of the Superintendent of Financial Institutions Canada (OSFI) introduced expected loss provisioning transitional arrangements for capital treatment allowing a portion of eligible allowances to be included in CET1 instead of Tier 2 capital on a transitional basis commencing in 2020 through to 2022. This adjustment is calculated each quarter as the increase in Stage 1 and Stage 2 allowances relative to the amount of Stage 1 and Stage 2 allowances as at December 31, 2019. This increased amount is tax adjusted and subject to a scaling factor that will decrease over time. The scaling factor to be applied is 70% for 2020, 50% for 2021 and 25% for 2022. The Company applied a scaling factor of 50% for Q4 2021.

(2) Tier 2 regulatory adjustments include non-significant investments in the capital of banking, financial and insurance entities.
